Stay safe when working:

Engaged in sex work?

Here are a few tips to help keep you safe!

- Send a friend the license plate of your date's car, or consider taking a picture of the car/license plate

- **Confidential bad date reporting:**

If you experience a bad date, you can report it to any SPARC staff member. If you would like, we can share that information with others in the SPARC community.

A bad date is anything you don't want yourself or others in the community to experience. We'll collect any info you want to share.

Stay safe when using:

- **Start low, go slow:** Begin with a small amount and pay attention to how you feel.
- **Stay hydrated!**
- **Ask us for Fentanyl test strips:** They can help determine if your batch has been cut with Fentanyl.
- **You cannot use Naloxone on yourself!** Using with someone else can help prevent fatal overdose.
- **If you are using alone:** Call a friend to 'spot' for you or the Never Use Alone Hotline: **(800) 484-3731**
- **Don't use drugs?** You can still carry Naloxone! Ask for a free training. *Community training/s available*

A CENTER FOR WOMEN

908 Washington Blvd
Baltimore, MD 21230
www.sparcbaltimore.com

Outreach:

(602) 935-7554

sparcwomenscenter@gmail.com

Follow us:

Facebook: www.facebook.com/SPARCWomensCenter
Instagram: [@sparc_center](https://www.instagram.com/sparc_center)

*SPARC serves the needs of trans and cis women, and nonbinary folks in our community with safe and compassionate services at **no cost.***

SPARC is rooted in the principles of harm reduction, which uses strategies to de-stigmatize and reduce the harms of drug use and sex work.

When and where to find us:

The center is open with limited capacity.

Services are available one-on-one and masks are required.
